

EDUCATION

Sri Eshwar College of Engineering	B. E (CCE)	CGPA:6.1(5 th Sem)	2023 - 2027
Vidyaa Vikas Hr. Sec. School	HSC	82.4%	2022 - 2023
Avvai KSR Matric High School	SSLC	Pass	2020 - 2021

INTERNSHIP

Better Tomorrow – MERN Stack 2025

Completed project-based MERN stack training with hands-on full-stack web development. Skilled in RESTful APIs, frontend-backend integration, and database operations.

PROJECTS

Smart Crop Monitoring using IoT 2026

Developed an IoT-based agricultural monitoring system to track and analyze real-time environmental conditions affecting crop growth. The system collects data from sensors such as soil moisture, temperature, and humidity, and processes it to provide actionable insights for efficient irrigation and crop management. Designed to improve agricultural productivity through automation and data-driven decision-making, with scope for remote monitoring and smart alert systems.

Tech Stack: IoT (Sensors & Microcontrollers), Embedded Systems, Python, Data Monitoring Systems

Steps to Watt 2026

Developed a system that converts physical activity, specifically step count, into estimated energy generation to promote awareness of sustainable energy usage. The project tracks user steps and applies conversion logic to calculate equivalent power output in watts, providing users with insights into how daily movement can contribute to energy generation concepts. Designed with a focus on real-time tracking and scalability, enabling future integration with wearable devices and enhanced analytics dashboards.

Tech Stack: Python, Sensor Data Processing, Basic IoT Concepts, Data Analytics

Shield Link - Network Packet Sniffer & Intrusion Detector 2026

Developed a real-time network monitoring tool that captures and analyzes packets to detect suspicious activities and potential security threats. Implemented ARP packet inspection along with custom detection logic to identify anomalies within network traffic. Designed the system in a modular and extensible manner, allowing easy integration of additional threat detection patterns and enhancements.

Tech Stack: Python, Scapy, Networking Protocols (ARP, TCP/IP)

Trustify – Blockchain-based Academic Certificate Authentication System 2025

Developed Trustify, a blockchain-based academic certificate verification system under the Smart Education domain (SIH25029). The platform enables universities to securely issue, manage, and verify digital certificates using a tamper-proof blockchain ledger, QR-based instant verification, and unique certificate ID validation. Designed role-based dashboards for students, institutions, and employers with secure APIs and privacy controls. The solution reduces verification time, prevents forgery, and supports Digital India and DigiLocker initiatives.

Tech Stack: React.js, Node.js, Express.js, Ethereum/Polygon/Hyperledger Fabric, MongoDB, IPFS, JWT, OAuth 2.0, Web3.js, Truffle, Ganache, MetaMask

Twinkclub BOM – Bill of Materials System

2024

Developed a comprehensive web-based Bill of Materials (BOM) management system for Twinkclub’s garment manufacturing operations. The application enables real-time calculation of material requirements and costs for organic polo t-shirts and other garments. It includes multiple material sections such as fabric, collar yarn, buttons, labels, and packaging, with responsive UI design that works seamlessly across devices. Built entirely with HTML, CSS, and JavaScript, the system supports multi-format exports including Excel, PDF, and Word, helping production teams streamline material planning and improve cost accuracy. The project enhanced efficiency in BOM preparation, reduced manual errors, and provided a modern, user-friendly interface for manufacturing workflows.

Tech Stack: HTML, CSS, JavaScript

TECHNICAL SKILLS

Languages: Java, Python , C(Basic), C++(Basic), JavaScript(Basic)
Technologies/Frameworks: HTML5, CSS3, React.js, Express.js, Node.js, REST API **Tools:** VSCode, Git, GitHub, Postman, Canva
Databases: MySQL, MongoDB
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming

ACHIEVEMENTS

LEETCODE| 120+ Problems Solved | Rating: 1,866
HACKERRANK | 70+ Problems Solved | Rating: 972 
SKILL RACK| 150+ Problems Solved 
Winner – AI DATATHON| Sri Eshwar College of Engineering | April 2025 **1st Place** | May-2025

CERTIFICATIONS

Mastering Data Structures & Algorithms using C and C++ Udemy	2023
Signals and Systems: From Basics to Advance Udemy	2024
Microsoft Azure: Hands On Training: AZ-900 AZ-104 and AZ-305 Udemy	2025
Machine Learning From Basic to Advanced Udemy	2025
